

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

A DICTIONARY OF ARTISTS

WHO HAVE EXHIBITED WORKS IN THE
PRINCIPAL LONDON EXHIBITIONS

OF OIL PAINTINGS FROM

1760 TO 1880.

COMPILED BY

ALGERNON GRAVES,

AUTHOR OF "A CATALOGUE OF THE WORKS OF SIR EDWIN LANDSEER, R.A."

LONDON :

GEORGE BELL AND SONS, YORK STREET,

COVENT GARDEN.

1884.

CHISWICK PRESS:—C. WHITTINGHAM AND CO., TOOKS COURT, CHANCERY LANE.

PREFACE.

THE object in publishing this "Dictionary of Artists," was to supply, if possible, a want long felt by myself, which may also be common to other students of the history of art. It was a desire to gain further information concerning the less known artists of England that prompted me to commence the series of manuscript lists, alphabetically arranged, of the works of those artists who had contributed to the five principal places of exhibition in London. The series completed down to the year 1880, which included nearly 16,000 names, has already been found of great use not only by myself but also by such critics and students of art as have consulted it.

As the cost of printing the whole series would have been too great, I have extracted such particulars as could be compressed into one line, with the endeavour, so far as I was able, during limited leisure time, to ascertain the full Christian names of the artists mentioned. Strange though it may seem, the catalogues of the different exhibitions have been of little use for this purpose, as from the first the compilers have either not been supplied with a full name with the pictures, or else they have neglected to print it. This defect has of late been corrected to a great extent, but there still remains much to be done, and I trust that for the future those gentlemen who may be responsible for the accuracy of catalogues of the various exhibitions will be more careful both to print those names supplied to them, and to request that all artists will clearly write their names in full. This may not at first seem necessary, but I am sure that all those who may refer to this Dictionary will, on finding a number of identical initials, be convinced that it will be of great service to future students of art to have the names in full. In the earliest catalogues extant the authors simply printed "Mr." (without the Christian name or initials), and this is the reason why so many names have no initial at all in this Dictionary. In the Royal Academy catalogues only are the full Christian names of members and associates printed, while at the Society of British Artists, Suffolk Street, even the secretaries do not know the Christian names of many of their own members. In the books themselves containing the signatures of membership, a scrutiny has shown that even in them, in a majority of cases, only initials have been used.

I shall be very grateful to anyone who will kindly forward me any Christian names of artists still wanting, as also the maiden names of any of the married lady artists. Lack of information on this point has been a source of great difficulty to me, and I at one time contemplated deferring the publication of this Dictionary until the names were obtained, but it would have taken too long a time, and I hoped that its publication would enable me to get information from sources not at present available. The names of married ladies have in all cases been inserted under two headings, hence those works exhibited after their marriage have been kept distinct from those (if any) executed previously, con-

sequently my entries will be correct even where I have failed to note cases in which two names indicate only one lady artist.

The type having been distributed as the work proceeded, many Christian names have been ascertained too late for insertion, but I shall always be pleased to give such additional information.

The names contained in this Dictionary include those of painters in oil and water colour, also those of Architects, Engravers, Medallists, Sculptors, &c.; in fact, of everyone who has contributed to the exhibitions quoted for the last hundred and twenty years.

It will be found on referring to this work that one of its chief uses is the distinction between different members of one family, and it is by mistakes in this respect that so many dealers in works of art become confused. I have often been assured that there was only one "Glover" or two "Nasmyths," whereas there have been several artists of these names in both families, the authorship of whose works is often wrongly described. This also applies to some other artistic families. The name of the place from which the first exhibit was sent will enable an inquirer to determine the names of the followers of any particular school, such as that of "Norwich," and it is astonishing to note how few are able from memory to give more than the names of the principal artists belonging to any local school. If the numbers in only one series of exhibition catalogues were given it would form no criterion as to the relative number of works executed by each artist, but from a consideration of the numbers in five distinct series, we can form, in most cases, a very accurate idea. With respect to miniature painters, where five or six works have been exhibited in one frame, these have been treated as only one exhibit.

The fact that the Grosvenor Gallery has not been included in the list of principal exhibitions, seems to demand some explanation. Until 1880 there had been only four exhibitions, from which the number of works exhibited up to that date was not so large as to make it worth while to add another column to this Dictionary. A second edition, however, should I ever be able to complete one, would include both the Grosvenor and the two Water-Colour Societies.

The authorities from which many Christian names of artists have been taken are Redgrave's "Dictionary of Artists of the English School," and "Artists of the Nineteenth Century and their Works," by Clement and Hutton.

A

DICTIONARY OF ARTISTS.

S.A. Society of Artists, F.S. Free Society of Artists, R.A. Royal Academy, B.I. British Institution, S.S. Suffolk Street Exhibitions.

The letters F.S.A. after the name signify (before 1800) Fellow of the Society of Artists; a § after the name, Member of the Society of British Artists, Suffolk Street; an * in any of the exhibition columns, that, owing to some oversight, the name appears in the index, but not in the body of the catalogue of that year.
